Slowly the effects take hold
Subtly you feel the pressure manifest
Clouded
Losing sight while insight begins to grip
A deeper feeling of unrest
Yet deeper breaths of tranquility
Passive abilities hold the molds together
A flightless unfeathered soul
Curses the sky
Drowning in ailments and pills
Hoping to fix the new issues that
only seem to divide and multiply
beyond comprehensive conclusion
The rocks skip against the frozen over the lake
Trees begin to wither into dust
One last smoke
Burned to a new revelation
Seeking Understanding
in things that seemingly fade
but spawn a subtle moment
Within the confines of space
